

HEINZE IS VERY ILL

Following Bedside Examination, \$275,000 Judgment May Be Reopened.

JUDGE SENDS PHYSICIANS Report Will Say Capitalist's Condition Has Been Serious for Month.

Four physicians made a visit yesterday afternoon to the bedside of Fritz Augustus Heinze in his home at 1 West Thirtieth street, and as the result of their examination of the sick man Supreme Court Justice Erlanger, on a case presented to him yesterday, has decided to reopen a judgment for \$275,000 against Heinze by default on June 2 last by William Nelson Cromwell.

While Drs. R. Coleman Kemp, E. E. Smith, Rufus B. Hubbard and George A. Macdonald made the medical examination Mr. Heinze's attorney, Jacob J. Schwebel, his special counsel, William Travers Jerome, and Alton B. Parker, counsel for Mr. Cromwell, sat in an outer room and waited the outcome. Justice Erlanger had announced earlier in the day that he would accompany the lawyers and physicians, but decided later that the physicians' report, which will be submitted Monday, will be sufficient. The report will say that Mr. Heinze's condition has been such for a month that it would have been impossible for him to appear in court.

The visit to Mr. Heinze's bedside was the result of a motion made by Mr. Jerome in behalf of Mr. Heinze before Justice Erlanger yesterday morning in which he said that through the inadvertence of the court in the order that Justice Erlanger made when he called on the physician, the defendant was seriously ill at his home and for that reason was unable to appear in court.

Mr. Cromwell's suit is one of a series in which Edwin Gould and Richard Young also are plaintiffs to recover for notes given by Mr. Heinze on the purchase of control of the Mercantile National Bank from the Gould interests in 1907. Following the panic of 1907, when Mr. Heinze relinquished control of the bank, he refused to pay the notes on the ground that he had been deceived as to the value of the bank stock. Mr. Cromwell's suit was the first of the series aggregating claims of \$1,500,000 to be tried.

In arguing the case to have the judgment set aside and the case put over for trial Mr. Jerome said:

"I have an affidavit from Dr. R. Coleman Kemp, the eminent specialist, to the effect that Mr. Heinze is seriously ill, his liver and stomach troubles are in subject to hemorrhages. It would be exceedingly dangerous for him to come to court at the present time or even to stand up at an examination at his own home. We ask that the default may be opened that my client may have an opportunity to defend himself against this conspiracy on the part of Edwin Gould and Charles W. Morse to defraud him."

Judge Parker objected to having the judgment set aside and declared that Mr. Heinze had permitted the case to go by default because he had no meritorious defense.

Mr. Jerome then jumped up, and turning to Judge Parker said:

"But, tell me, Judge, Mr. Heinze is really a sick man. He may never again be able to get out. I don't think it right to take advantage of a dying man. Have a heart, Judge, have a heart."

It was agreed that Justice Erlanger would have an official report made as to Mr. Heinze's condition Judge Parker would consent to it.

ROCK ISLAND PEACE NEARER.

Reorganization Plan May Be Agreed Upon To-day.

The Rock Island bondholders' and stockholders' committee held a joint meeting today at which it was believed that the two sides will come together and adopt the general lines of a tentative plan of reorganization. The feeling in the financial district is that the two principal interests had finally reached an approximate agreement was substantiated in the strength of the Rock Island bonds on the Stock Exchange yesterday.

COTTON QUARANTINE AMENDED.

Importation of Seed From Certain Mexican States Permitted.

WASHINGTON, June 18.—The quarantine against foreign cotton seed and seed hulls, declared in order to protect American cotton from the pink boll worm, has been amended by the Department of Agriculture in order to permit importations from three more of the northern States of Mexico.

Hitherto importations were permitted only from the States of Lower California, Nuevo Leon and Tamaulipas. The privilege is now extended to the States of Coahuila, Durango and Chihuahua.

Under the new regulations cotton seed for manufacturing purposes only and cotton seed hulls for any purpose may be imported from the States named under special permits, applications for which giving the names and addresses of both exporters and importers, should be made to the Federal Horticultural Board.

A \$5,000 bond must also be furnished to the customs authorities that the cotton seed was grown in these States and is to be used for manufacturing purposes only.

TO INSURE OWN EMPLOYEES.

Big Concerns May Find It Cheaper Under Compensation Law.

Big corporations are leaning to the belief that the new workers' compensation act it will be cheaper to adopt their own form of insurance than to pay excessive premiums to liability concerns.

The Brooklyn Rapid Transit Company and the Edison Illuminating Company of Brooklyn, two of the largest employers in Greater New York, announced yesterday that they have decided on a form of insurance. The Brooklyn Union Gas Company expects to make a similar announcement to-day.

The law goes into effect on July 1. Concerns that have decided to insure their employees have a limited time in which to take out insurance. Their plan must be approved by the commission and they must deposit with the commission a sum equal to six months premium on the amount fixed as their probable liability.

HEARINGS ORDERED ON LEASED WIRES.

Interstate Commerce Commission to Examine Into System Now in Use.

The Interstate Commerce Commission will hold hearings at the Custom House here on July 1 to inquire into the matter of the leased wires of telegraph and telephone companies. Commissioner Hall will preside.

Vice-President C. C. Adams, of the Postal Telegraph Company, M. C. Rority, assistant to the vice-president of the Western Union, and Charles H. Wilson of the American Telephone and Telegraph Company have been subpoenaed to testify at the hearing.

The hearing is a result of complaints made to the commission that the leased wire system results in a disadvantage to those who send commercial messages. The complaints are chiefly from the grain men of Chicago and other cities of the middle West. They assert that the users of leased wires receive the advantage of both cheaper rates and quicker service.

Examiner Van Zandt of the Interstate Commerce Commission has investigated the leased wire system of the Western Union Telegraph Company and is expected to arrive from Washington to-day to examine into the Postal's business.

It is understood that the position of the Western Union is that the company would be pleased to see the leased wire service done away with entirely, except in the case of newspapers, where it is indispensable. The attitude is held that it is entirely obvious that the user of a leased wire gets better service and cheaper rates if his volume of business is big, just as wholesale rates are always more favorable.

BIG FIGHT STARTS MANHATTAN TRANSIT.

Minority Stockholders Defy President Hoadley at Hot Meeting.

DECIDE TO SEIZE COMPANY Independents Charge "Unmitigated Grab" in Proposed Longacre Co. Sale.

Minority stockholders of the Manhattan Transit Company decided at a meeting yesterday to fight the majority stockholders to a finish in the courts if they persist in putting through what the minority owners characterized in speeches as "one of the most unmitigated grabs that has been perpetrated on a minority interest in recent corporation history."

Lod by Edward L. Hearn, who has a considerable investment in the company, the minority stockholders, representing 94,652 shares, elected their own directors yesterday in opposition to the regulars, who they charge were illegally elected the day before. They also agreed that they would make an effort to take possession of the books and management of the company, and if obstructed defend their rights in the courts as legally constituted directors and managers of the company.

The minority stockholders maintain that the meeting held on Wednesday, presided over by Joseph H. Hoadley, the company's president, and at which 189,000 shares of stock were represented, was illegal, on the ground that the officers and directors, headed by Mr. Hoadley, had failed to hold the annual meeting as required by the charter.

It was charged that Mr. Hoadley tried to forestall the protests of the minority by calling a regular meeting one day in advance of the minority meeting, and five months in advance of the regular meeting date.

Hoadley Springs Surprise.

The independents and the Hoadley supporters had a lively clash yesterday morning. The independent group met in Room 1604 at 10 West Forty-second street at 11 o'clock. Instead of Room 1604, they were ushered into Room 1605 and were surprised ten minutes ahead of time by the meeting to see Joseph H. Hoadley step to the front and call the meeting to order as the adjourned annual meeting of the day before. Edward L. Hearn, leader of the minority, and his counsel, Bernard Naumburg, saw the scheme by which they were being separated into two groups and started to get their followers out into the next room.

"This meeting is now adjourned," cried Mr. Hearn. "We will continue in the next room."

The meeting is not adjourned," said Mr. Hoadley. "The meeting is now going on. The minutes are now being read."

When a rush of stockholders for the next room had discovered that Room 1604 was hardly more than a cubbyhole there were shouts of "Get a hall!" The minority leaders announced that the independent meeting would be held at the Park Avenue Hotel at 12 o'clock.

When the crowd withdrew Mr. Hoadley was still listening to the minutes being read from the top of a telephone operating board, with the secretary and one or two others with him in sole possession.

but the proportion of the high grade stock is small. Nearby henry is in fair demand. There is a fair demand for all grades of eggs.
